

SIRIUS
STAFFING

bright minds. brilliant work.

Sirius Staffing provides dynamic organizations with qualified and experienced employees committed to your critical and time-sensitive initiatives.

From contingent workers and payrolled staff to direct hires and outsourced HR professionals, Sirius delivers innovative workforce solutions that give you the competitive edge through superior talent.

ABOUT SIRIUS STAFFING

Sirius Staffing is the leading minority and veteran-owned workforce solutions company serving the commercial, industrial, and government sectors. Our recruiting, payroll, and HR services enable our customers to outsource their talent management functions while remaining focused on their mission-critical operations.

Sirius was formed in 2005 to meet the demand for skilled, flexible, and dynamic workers for engineering and manufacturing companies along the Gulf Coast. What began as a modest response to regional market conditions has now grown to become a significant force on the national stage.

Vision

A national ecosystem of consultants and clients where every job is filled, every regulation is fulfilled, and every career is fulfilling.

Mission Statement

To transform the workforce experience by leveraging innovative solutions that connect empowered workers with world-class organizations.

WHAT WE DO

Sirius is known for our ability to innovate solutions and consistently deliver service excellence. Our highly personalized process and our national reach will help you control costs and improve the quality of your hires.

Contingent Workforce

Whether you need talented professionals for a few days or a few years, Sirius will match you with the right person for every role. Build effective project teams, close skill gaps and cover staff shortages quickly and accurately.

Payrolling Services

Reduce the time to onboard and deploy short-term and itinerant workers. Sirius handles payroll, benefits, workers' compensation and other administrative functions as well as compliance and regulatory issues.

Direct Placement

Stay focused on your business and let Sirius handle the sourcing, vetting, and evaluation of top candidates for full-time positions. We act as an extension of your HR team and provide transparency throughout the search process.

RPO Services

Sirius provides recruitment outsourcing services to clients that need back office support. We can perform specific workforce functions such as recruiting or onboarding or we can act as the HR department for your company.

CUSTOMER REFERENCES

My experience with Sirius Staffing has been first class. My contact there is the angel that led me to obtaining the best job I've had in over 29 years, scheduling and reviewing my resume to find exactly what I was looking for since I was in college. She was very detailed and informative, and considering the time she took out to text and email me about my concerns, I was surprised. There isn't a better agency than Sirius Staffing. I have been to them all and almost through them all. Whether part-time or full-time, Sirius is #1. Thank you, Sirius, for making this opportunity one I can retire from and grow old knowing it's my last job, or better yet my career job.

I cannot say enough good things about this company, and the ladies that work there. I have been a contractor of Sirius Staffing for many years, and they have never let me down. My account manager has been an absolute godsend. She has followed through with everything she said she would do and has proven time and time again that she is genuine, professional, and truly cares for the employees of Sirius. I have called and texted at all hours of the day, and all days of the week, and she is always pleasant and greets me with eagerness to help!

I was also put in touch with a recruiter who was extremely helpful, and timely with responses. She listened to me and guided me with my professional resume. The ladies at Sirius are a true joy to work with and I encourage anyone looking for employment to call them!
