## How We Serve You

Sirius has successfully partnered with Workforce Innovation and Opportunity Act (WIOA) providers to support the vision, mission, and goals of this landmark workforce development program. Sirius performs payroll processing, reporting, workers' compensation insurance, and other administrative services on behalf of employees recruited under WIOA programs. Sirius is passionate about the importance of this work in developing skills for individuals and meeting the workforce needs of localities, states, and the country.

**Jones College Out-of-School Youth Program** has been using Sirius Staffing to pay our students for work experience since June 2018. Scott Hotard and the rest of the staff at Sirius have made the work experience process so much easier for us. They handle all the liability and payroll, which makes a much smoother process for us. They are easy to work with and willing to help with any questions or concerns we may have. Jones College was recently granted another WIOA funded grant a few months ago. The success we have had with Sirius has led another grant program, the Jones College Internship Program, to use Sirius, as well.

I would recommend Sirius Staffing to any providers who need a staffing agency to pay their students for work experience or internship programs.

– J.H., Out-of-School Youth Coordinator
